**TURNING INSERT**

# turning insert WNMG080408E-PD3 AC150P

## SPECIFICATIONS

<b>Wenof thechneidplattenform</b>	80°
<b>freewinkel</b>	0°
<b>Toleranz</b>	0,127mm
<b>Klemmtyp</b>	G
<b>Schneidelänge</b>	0,8mm
<b>Plattendicke</b>	4,76mm
<b>Eckenradius</b>	0,8mm
<b>Kattenpräparation</b>	ground Schneide
<b>Spatbrecher</b>	PD3

A small technical drawing or table showing application conditions for the turning insert. It includes a grid with various parameters and a legend. The table is titled 'Anwendungsempfehlungen nach Material' and contains columns for material groups, cutting speed, feed, and depth of cut. The legend indicates different material groups with colored circles: blue for steel, yellow for cast iron, red for stainless steel, and green for titanium alloys.
