

SNMG120408E-MC3 AP301M

TURNING INSERT

SNMG120408E-MC3 AP301M

SPECIFICATIONS

Wenof thechneidplattenform	90°
freewinkel	0°
Toleranz	0,127mm
Klemmtyp	A
Schneidelänge	12mm
Plattendicke	1,76mm
Eckenradius	0,8mm
Kattenpräparation	ground Schneide
Spatbrecher	MC3
weight	3,00 kg

Diagram showing materials compatibility for the SNMG120408E-MC3 AP301M turning insert. The chart is a grid with material groups on the vertical axis and tool grades on the horizontal axis. The materials are color-coded: blue for steel, yellow for cast iron, red for stainless steel, and orange for titanium. The tool grades are also color-coded: blue for MC3, yellow for MC4, red for MC5, and orange for MC6. The chart indicates which tool grades are suitable for each material group.
