

## folding machine SBKM 1270-2 M

Segmentierte Biegemaschine with compression spring for upper beam.

### Price upon inquiry

#### specifications

bending length	1270 mm
bending capacity St42	2 mm
max. opening size	48 mm
size of segment	25, 30, 35, 40, 45, 50, 75, 100, 150, 200, 250, 270 mm
bending angle stop	adjustable with Nonius until max. 135°
counterweighth upper beam	compression spring
counterweighth bending beam	Exzenter and spring
bending movement bending beam	bow handle
weight	330,00 kg
dimensions	1598x900x1175 mm

#### equipment

- counterweighth the upper beam through compression spring
- counterweighth the bending beam through Exzenter and spring
- bending movement the bending beam through bow handle
- adjustable bending angle stop with Nonius until max. 135°
- segmentierte tools the upper beam
- size of segment: 25, 30, 35, 40, 45, 50, 75, 100, 150, 200, 250, 270 mm
