

folding machine SBKM 2000.5

These hydraulic folding machines will in Stable
verwindungsstiffnessr Steelconstruction produced.

Price upon inquiry

specifications

bending length	2000 mm
bending capacity	0.5 - 7.0 mm
range of angle for uper bendingtool	0 - 110 °
upper cheek stroke	200 mm
enginepower of hydraulicpump	5.5 KW
weight	3.000,00 kg
dimensions	3100x1060x2000 mm

equipment

- machine body in heavy rigid steel construction
- high tensile strength the bending beamn
- simple operation
- drive for upper beam and bending beam

accessoires

security light curtain,manual bombation
