folding machine SBKM 3100.6

These hydraulic folding machines will in Stable verwindungsstiffnessr Steelconstruction produced.

Price upon inquiry

specifications

bending length	3100 mm
bending capacity	0.5 - 6.0 mm
range of angle for uper bendingtool	0 - 110 °
upper cheek stroke	200 mm
enginepower of hydraulicpump	5.5 KW
upper beamnsegmentstart	2x450;2x200;2x175;2x300;1x600;1
frommitsungen	x250 mm
weight	5.500,00 kg
dimensions	4200x1100x2000 mm

equipment

- machine body in heavy rigid steel construction
- high tensile strength the bending beamn
- simple operation
- drive for upper beam and bending beam

accessoiries

security light curtain,manual bombation
